

OneApp Agency System Requirements

OneApp Agency performs best when installed on a computer with the specifications recommended below. It is important to keep your computer updated with Microsoft Windows® critical updates.

	SERVER	WORKSTATIONS
Processor	1 GHz or higher	1 GHz or higher
RAM	1 GB	512 MB
Hard Disk Space	1 GB	500 MB
Operating System	Windows 2000 (SP4), 2003 Server (SP1) or 2008 Server	Windows 2000 (SP4), XP Pro (SP2) or Vista
Database Software	Microsoft SQL Server 2000, Microsoft SQL Server 2005, Microsoft SQL Server 2008	Only required if functioning as a server (hosting the database on a workstation)
Prerequisite Software	Microsoft .NET Framework 2.0 and MDAC 2.8 (SP1)	Microsoft .NET Framework 2.0 and MDAC 2.8 (SP1)
Scanning Software	N/A	OmniForm 5.0
Scanner	N/A	Personal / Desktop Scanner
Microsoft Office	N/A	Microsoft Office 2003 or 2007
Internet Connectivity	Required (to obtain licensing information)	Required (to obtain licensing information)

The .NET Framework is a component of the Microsoft Windows® operating system used to build and run Windows-based applications. The .NET 2.0 Framework is included with Windows Vista.

- Learn more about .NET: <http://www.microsoft.com/net>
- Download .NET 2.0: <http://msdn2.microsoft.com/en-us/netframework/aa731542.aspx>

MDAC (Microsoft Data Access Components) contains core data access components such as the Microsoft SQL Server™ OLE DB provider and ODBC driver. Microsoft SQL Server 2005 requires MDAC 2.8 (SP1).

- Check your current MDAC version: <http://support.microsoft.com/kb/301202>
- Download MDAC: <http://msdn2.microsoft.com/en-us/data/aa937730.aspx>

OmniForm 5.0 is required for workstations to scan, design, view, and complete forms through OneApp Agency. OmniForm is third party software developed by Nuance Communications. SyMplify Technologies does not distribute, license, or sell OmniForm. You can learn more or purchase OmniForm from <http://www.nuance.com/omniform/standard/>.

Scanners are required to scan the forms and applications and supporting agent/employee documents. Scanners must be compatible with Nuance’s OmniForm software. SyMplify does not recommend or support the use of network scanners, as forms must be scanned directly through OmniForm. An individual scanner is not required for each workstation.

Microsoft Office is required only if licensed for the Data Export Tool, a OneApp premium module.

Note: The hardware, software, and other materials required pursuant to this Exhibit are to be provided by Licensee at its own cost and expense. They must be installed and in working order prior to Software System installation. SyMplify Technologies strongly recommends having a backup plan in place to preserve critical database files. System requirements are subject to change without notice. All trademarks are property of their respective owners.
